PROJECT

1. [BodySupplements](#)

Feb 2025

Technologies Used: Next.js (App Router), React.js, Tailwind CSS, Custom API

Description: Built a fitness supplement e-commerce website with a user-friendly interface, featuring product listings, detailed descriptions, customer reviews, and a left-side hamburger menu for easy product filtering. Includes discount & rating display, shipping & return details, and a seamless shopping experience.

2. [Moistiq-lipglow](#)

Feb 2025

Technologies Used: React (Vite), Tailwind CSS

Description: Developed a modern lipstick e-commerce website with a pink-themed design, responsive layout, and an interactive contact form to enhance the shopping experience.

3. Tour & Travel Website

Oct 2024

Technologies Used: Django, HTML, CSS, JavaScript, Bootstrap.

Description: Developed a dynamic tour and travel website with a fully responsive design. Features include interactive booking forms and automated price calculations, allowing users to explore and book tours effortlessly.
